

African Florals
PRODUCT CATALOGUE

The design language from Tweek is **BOLD**, brave *d a r i n g* **UNCONVENTIONAL**, **distinctive**, colourful, inclusive, customisable

MAXIMALIST... & FULL of **l o c a l** **AFRICAN** flavour

Welcome to the Tweek.Design AFRICAN FLORAL Collection.

We are an emerging Maximalist African Inspired luxe lifestyle brand.

These bold designs are inspired by our love for Africa and her colourful heritage. Africa is both harmony and chaos. Elegant yet wild and untamed. Africa lives by her own rules. These characteristics have inspired this collection.

Each design is unique and has a story to tell. Each story represents a connection, a place, a mood or an experience...a visual dialogue.

A contemporary souvenir of African heritage. A passion for the wild and exotic.

Your confidence is in what you wear.

Locally made bold merchandise for the adventurous spirit.

We look forward to sharing our inspired collections with you.

We are continually innovating and updating the shop with new designs, products and promotions.

Each piece is handcrafted and generally made up to order. The belts are interchangeable between dresses and kimonos, and the wider belts can be used as scarves. The kimonos can be teamed up with swimwear, and the Duster coats wear beautifully over jeans. Look out for the short Kimono jackets just launched. All designs work harmoniously together

Resort wear- The fabrics used in the production of these products are totally natural linens, and water based eco friendly pigments are used to print these fabrics.

The **Swimwear** range is made from high quality Poly-spandex lycra and are sublimated. Swim towels are also sublimated and come in 2 different fabrics.

Promotional wear - Tees and Hoodie's are predominantly cotton, except when sublimated. Various print methods are used across the range to get the best results.

Decor range - all scatter cushions are printed on Velvet, Satin or Polycotton Twill, and for a real showstopper cushions can be printed on rose gold, gold or silver satins for a more dramatic look.

Ethical and Eco conscious - Tweek Design fabrics are manufactured in limited quantities, and products are made to order so we minimise waste. This means orders may take a little longer but please reach out to us directly if you have urgent requirements. In our attempt to tread lightly as a business, we use as much of our leftover fabrics as possible to create smaller items such as the panelled swim caps.

We are constantly striving towards a zero waste model.

Please enquire should you wish to order larger quantities of fabric or product, and for customised options.

If you are a reseller or wish to create a unique brand experience for your business, please reach out to discuss how we can create your very own exclusive range.

*with love from
Karyn*

African Florals
